Overview of South University Psychology Programs

South University offers a range of psychology programs at both the undergraduate and graduate levels. These programs are designed to equip students with the foundational knowledge and practical skills necessary for a successful career in psychology or related fields. The curriculum is tailored to foster critical thinking, research skills, and an understanding of diverse psychological theories and practices.

Undergraduate Programs

The undergraduate programs at South University include a Bachelor of Arts in

Psychology and a Bachelor of Science in Psychology. Each program is designed to provide a solid grounding in psychological principles while allowing students to explore various specializations.

- **Bachelor of Arts in Psychology:** This program emphasizes a liberal arts education, focusing on the social aspects of psychology. It includes coursework in social psychology, developmental psychology, and abnormal psychology.
- **Bachelor of Science in Psychology:** This degree is more research-oriented, with a focus on scientific methods and quantitative analysis. Students engage in coursework that covers statistics, research design, and biological bases of behavior.

Graduate Programs

For those seeking advanced education, South University offers a Master of Arts in Clinical Mental Health Counseling and a Doctor of Psychology (PsyD) in Clinical Psychology. These programs are designed for students who wish to pursue licensure and practice in clinical settings.

- **Master of Arts in Clinical Mental Health Counseling:** This program prepares students for careers as licensed professional counselors. The curriculum includes counseling techniques, ethics, and clinical supervision.
- **Doctor of Psychology (PsyD):** This program focuses on preparing students for clinical practice with an emphasis on practical experience and psychological assessment.
